

**COVID-19
INFORMATION**

The Delta Variant

WHAT ARE THE FACTS?

- Up to 2.5 times more contagious than previous strains
- Mainly affects unvaccinated individuals
- Previous COVID-19 infection does not protect you from the delta variant

WHAT SHOULD YOU DO?

- Get a COVID-19 vaccine – the best protection against severe illness, hospitalization, and death
- Wear a face mask and maintain a distance of 6 feet or more in public spaces
- Avoid crowds and poorly ventilated areas
